

In the Deep

A vibrant underwater scene with a young girl with glasses and a pencil in her hair swimming among various colorful fish and coral reefs. The background is a bright teal color with light rays filtering down from the top. The girl is in the center, looking towards the viewer. She has dark curly hair, pink-rimmed glasses, and a pencil tucked into her hair. She is wearing a purple long-sleeved shirt and blue shorts. Around her are several fish: blue tangs, a yellow and white striped tang, a grey fish, and a blue tang. There are also bubbles and a variety of colorful coral reefs in shades of orange, purple, and green.

Anika wants to go in the sea, but she is scared. Her mum tells her to give it a try.

She jumps in and then needs to stand back up. The sea went in the spout. She spits it out.

She can see a lot of shells.
She counts them as she
gets the hang of the spout.

Anika spots a turtle!

It went from the beach
to the sea, just like
Anika did!

She sees a fish that
can fly! She swims
with it. It jumps up.
Splash!

She dives deep in the sea. She swims by a big, gold rock.

It is not a rock! Its legs come out and it jets off. It is an octopus!

The octopus can turn red.
What will it do next?

It turns blue! Then... ouch! The octopus nips Anika with its beak.

She sinks to the
bed of sand.
What lives in this
reef?

A long eel! It darts out.
Anika backs off so that the
eel can flee. It just wants to
be safe.

As she starts to go back,
she sees a manta ray.
She peers at it. It seems
like it can fly.

The last thing that she sees is dolphins. They help take her back to her mum.

Her mum asks what it was like. Anika tells all. She is a big fan of the deep.

Bookbot books are free, high quality decodable readers based on the order of sounds introduced by the **Bookbot Scope & Sequence**.

We're delighted to offer them to you to download and print at no cost. But it would be great if you could link to our page www.bookbotkids.com/free-books from your school's website so others can enjoy our free books.

We believe in creating an extensive library of decodable readers to inspire and bring confidence to children learning to read. You can find out about our mission at www.bookbotkids.com.
