

# I Can Spot ....

illustrated by  
**Lá Studio**

A frog can spot  
the rooster.

It spots me.

I spot a man.

He is off to town.

He spots a  
big cow.

The cow  
spots a bird  
in the sky.

The bird  
spots a cat.

The cat  
spots me.

I spot a bug.

A child's hand, with fingers spread, reaches up towards a bright, glowing star in a dark blue night sky. The star is surrounded by concentric circles of blue and yellow, suggesting a bright light source. The sky is filled with numerous small, white stars and some faint, colorful streaks. The overall scene is a simple, illustrative representation of a child looking up at the stars.

The bug  
spots the  
stars.

The stars  
can spot  
us all.

There are a lot of  
stars in the sky.

Off to sleep.

Bookbot books are free, high quality decodable readers based on the order of sounds introduced by the **Bookbot Scope & Sequence**.

We're delighted to offer them to you to download and print at no cost. But it would be great if you could link to our page **[www.bookbotkids.com/free-books](http://www.bookbotkids.com/free-books)** from your school's website so others can enjoy our free books.

We believe in creating an extensive library of decodable readers to inspire and bring confidence to children learning to read. You can find out about our mission at **[www.bookbotkids.com](http://www.bookbotkids.com)**.
