THE INTERNET

written by
BEL RICHARDSON

illustrated by
DELWYN REMEDIOS

The internet is like a web.

We use the web for both work tasks and fun.

The web has films, tunes and sites that we can use.

These kids want to learn. Miss will help the kids use the internet.

The cord that plugs in the wall back there lets Miss use the internet.
We have the internet at home as well.

We must use the internet for most jobs.

Some like to post from wild spots!

The internet helps
us to find art.

We can use it to find facts.

We live in the age of the internet.

Do you use the internet?

Bookbot books are free, high quality decodable readers based on the order of sounds introduced by the **Bookbot Scope & Sequence.**

We're delighted to offer them to you to download and print at no cost. But it would be great if you could link to our page **www.bookbotkids.com/free-books** from your school's website so others can enjoy our free books.

We believe in creating an extensive library of decodable readers to inspire and bring confidence to children learning to read. You can find out about our mission at **www.bookbotkids.com.**
