MAP SKILLS

A map is a drawing that shows what places look like from above.

People use maps to help them find where they want to go. Maps can show cities, roads, rivers, and even playgrounds. Some maps have a compass rose that shows directions like North, South, East, and West. Maps often use symbols and colors to show different things. Looking at a map carefully can help you understand how to travel from one place to another.

What do people use maps for?

Name two things you might see on a map.

What is a compass rose used for?
