Numbers and Counting

Anna has a box of crayons. She counts them one by one. She finds 3 red crayons, 5 blue crayons, and 2 yellow crayons. Anna wants to know how many crayons she has in total, so she adds the numbers together. Anna is happy because she

can count and use numbers to solve problems!

How many blue crayons does Anna have?

How many crayons does Anna have in total?

Which color of crayon does Anna have the least of?
