Operations and Algebraic Thinking

Mia has 3 red apples and 2 green apples in her basket. She wants to know how many apples she has in total. Mia counts, "One, two, three, four, five". She finds out that 3 red apples plus 2 green apples make 5 apples altogether.

How many green apples does Mia have?

How many apples does Mia have in total?

If Mia gives 1 apple to her friend, how many apples will she have left?
