## The United States Landscape

The United States has a very diverse landscape. There are tall, snowy mountains like the Rockies, wide flat plains where farmers grow crops, and long winding rivers such as the Mississippi. In the west, you can find dry deserts, while the east has thick green forests. The United States also has beautiful beaches along its coastlines. People can hike in the mountains, swim in the ocean, or explore forests and deserts. This variety makes the country special and exciting to explore.

What is one kind of land that you can find in the United States?

---
