Time and Money

Sarah goes to the store with her mom at 3 o'clock in the afternoon. She wants to buy a toy that costs \$5. She has \$3 from her piggy bank. Her mom gives her \$2 more so she can buy the toy. After buying the toy, Sarah and her mom go home at 4 o'clock.

What time did Sarah and her mom leave the store?

How much money did Sarah have before her mom gave her more?

How much did the toy cost?
