# Weather

The weather is what it feels like outside every day. Sometimes the sky is sunny and bright, making it warm enough to play at the park. Other times, clouds cover the sky, and it might rain, making everything wet. When it is cold, you might need to wear a jacket or stay inside. Weather can change quickly, so people look at weather reports to decide what to wear or if they need an umbrella.

What do people use weather reports for?

\_\_\_\_\_

Name two types of weather mentioned in the passage.
